Mr. A. W. Conklin, Head  
Air Emissions and Defense Waste Section  
Division of Radiation Protection  
State of Washington  
Department of Health  
Airdustrial Park Building 5, LE-13  
Olympia, Washington 98504-0095

Dear Mr. Conklin:

## 1993 REGISTRATION APPLICATION FOR RADIONUCLIDE AIRBORNE EMISSIONS

Enclosed is the Registration Application (Application), "Registration for the Hanford Site: Sources of Radioactive Emissions, DOE/RL-89-08-02," dated April 21, 1993. The Application serves to renew the registration for all Hanford Site sources of radioactive air emissions routinely reported to the State of Washington Department of Health (DOH). The current registration expires on August 15, 1993. The Application is submitted pursuant to the Washington Administrative Code (WAC) Chapter 246-247, and is consistent with guidance provided by DOH for renewal.

The Application subdivides the Hanford Site into six major production, processing or research areas. Those six areas are in the 100 Area, 200 East Area, 200 West Area, 300 Area, 400 Area, and 600 Area. Each major group of point sources within the six areas listed above is represented by a Source Registration for Radioactive Air Emissions Form. Annual emissions for the sources are listed in the "Radionuclide Air Emissions Report for the Hanford Site," published annually.

It is a requirement that the following Statement of Compliance be provided:

"The radioactive air emissions from the above sources do meet the emissions standards contained in Chapter 173-480-040 WAC, Ambient Air Quality Standards and Emissions Limits for Radionuclides."

As the Statement of Compliance pertains to this submittal, the phrase "above sources" is to be understood as meaning the combined air emissions from all sources registered by this submittal. The signature below authorizes this Statement of Compliance for the U.S. Department of Energy, Richland Operations Office.
